

Abdul Aleem

Generative AI Engineer | LLM Developer | AI Automation Engineer

+92 3284836277 | aleem046098@gmail.com | www.github.com/AbdulAleemDev | www.linkedin.com/in/abdulaleem-ai

PROFILE

Generative AI Engineer with hands-on experience building **LLM-powered applications** using **LangChain, LangGraph, OpenAI APIs, and GPT-4**. Skilled in developing **RAG pipelines, AI agents, fine-tuning models**, and **intelligent workflow automation** with n8n. Strong foundation in **Machine Learning, NLP, and Transformer architectures** with practical experience integrating AI models into production-ready applications.

EDUCATION

Bachelor of Science in Information Technology

University of the Punjab Lahore, Pakistan | 2021 – 2025

- Among the top 15% of the batch
- Relevant Coursework: Data Science, Artificial Intelligence, Machine Learning, Natural Language Processing, Python Programming, Database Systems, DSA, OOP

SKILLS

- **Languages:** Python, SQL, JavaScript, C++
- **Libraries/Frameworks:** LangChain, LangGraph, OpenAI API, Prompt Engineering, RAG (Retrieval-Augmented Generation), Vector Databases,
- **Concepts:** Machine Learning, Deep Learning, NLP, Transformers, Data Preprocessing
- **Tools/Platforms:** Jupyter, Google Colab, GitHub, VS Code

CERTIFICATIONS

- [Discover the Art of Prompt Engineering](#)
- [Google AI Essentials](#)
- [AI for Business Professionals](#)
- [Data Science & Analytics](#)
- [Use AI Responsibly](#)

EXPERIENCE

Intern-DevelopersHub.co | Dec 2025 – Feb 2026

Intern-Axel | Apr 2026 – current

PROJECTS

AI Chatbot SaaS Platform

- Built a multi-tenant SaaS where users create custom chatbots with RAG-powered document Q&A and embed them on any website via JavaScript widget
- Designed configurable AI controls (temperature, system prompts) with user auth and conversation history.

Multi-Modal AI Chatbot

- Built a multi-modal chatbot handling text, images, PDFs, and voice using Groq APIs.
- Implemented RAG-based document QA with conversation memory for contextual answers

AI Page Cloner for WordPress/Elementor

- Built a WordPress plugin using GPT-4 Vision to convert screenshots into editable Elementor pages
- Generated valid Elementor JSON with automated section mapping and one-click import
